If job Existing/ Totals- Lights \_\_\_\_\_ Switches \_\_\_\_\_ Receptacles \_\_\_\_\_

For pools -Bonding \_\_\_\_\_ gfci rec. \_\_\_\_\_ pump \_\_\_\_\_ lights \_\_\_\_\_

Additional Electrical to be added \_\_\_\_\_

**ALL WORK MUST BE INSPECTED AND APPROVED BY THE INSPECTOR BEFORE WIRES ARE COVERED!**

1. Rough in Inspection- When all wiring has been installed but not covered.
2. Final Inspection- After all connections have been made and fixtures are set.

\*Notice: To avoid an additional trip fee, if building will be locked, give a key location where the inspector can find a key, or leave door unlocked/open.

It is understood that all wiring is to conform to the National Electrical code for the time of construction. This permit will be valid for six months unless work has commenced, and shall expire in 12 months. Should work subside the permit will be expired, and a take-over permit will be needed to finish the work.
